The Roots Of Appeasement

Ronald Reagan—David T. Byrne 2018

"In this ambitious work, David Byrne analyzes the ideas that informed Ronald Reagan's presidency over the course of his career. Byrne's in-depth analysis provides a comprehensive understanding of Reagan's political philosophy, history and discussion of political policy to uncover what Collingwood says about the First World War. It is a compelling portrait of the man and his times, offering fresh insights into the policies and decisions that shaped American history.

Lloyd George and the Appeasement of Germany, 1919-1945—Stella Rudman 2011

This book examines Lloyd George's role in shaping postwar Europe. As the Chancellor of the Exchequer and then Prime Minister until October 1922 and a leading player in the shaping of postwar Europe, Lloyd George maintained an active interest in foreign policy issues throughout the 1920s and 1930s. His policy of appeasement towards Germany and his support for the League of Nations had significant implications for the evolution of European politics. 

Caste—Isabel Wilkerson 2020

NEW YORK TIMES BESTSELLER - OPRAH'S BOOK CLUB PICK - The Pulitzer Prize-winning, bestselling book that has captured the attention of readers around the world. This book explores the origins and evolution of the caste system in India and its enduring impact on contemporary society. It is a powerful portrait of a society that has been shaped by a rigid hierarchy of human divisions, and it shows how this system has influenced the lives of individuals and communities in India and beyond.

The Roots Of Appeasement

The Roots Of Appeasement (1895-1938) is the timeline on which we map out the national security strategy of the United States during the First World War and World War II. It is a comprehensive analysis of the key events that shaped the United States' role in the global political landscape. It is a critical read for anyone interested in understanding the roots of America's foreign policy and the factors that have influenced its approach to world affairs.

Beyond Appeasement—Cecelia M. Lynch 2018

The interwar peace movements were, according to conventional wisdom, at the root of the appeasement of Germany. They were supposed to prevent another World War but instead contributed to the rise of totalitarian regimes in Europe. Cecelia Lynch argues that appeasement was a deliberate policy choice made by governments in the 1930s to avoid a new war.

The Wealth Of Nations—Adam Smith 1776

In this groundbreaking work, Smith introduces the concept of the "invisible hand," which posits that individuals, motivated purely by self-interest, end up promoting the public good. This idea has had a profound impact on the development of economic thought and continues to influence modern economic theory. It is a seminal work that has shaped the way we think about the role of government in the economy.
