The Korean Conflict-Burton Ira Kaufman 1999 Offers a historical overview of the war while discussing the prisoner of war issue and the roles of the Western Alliance, Great Britain, China, and the Soviet Union in the conflict.

Without You, There is No Us-Suki Kim 2015 The award-winning author of The Interpreter traces her experiences as an English teacher to the sons of North Korea's elite during the last six months of Kim Jong Il's reign, an effort complicated by oppressive regime enforcers, propaganda and evangelical missionaries. 40,000 first printing.

Military Industry in Taiwan and South Korea-Janene E. Nolan 1986-02-24 Since World War II, the United States has done much to support economic, political, and social development in the Third World. At the same time, its policies toward developing nations often reflect an overly narrow conception of national and global security in which the influences of the modernization process seem scarcely to have been taken into account. Both strains in US policy are mirrored in strong academic traditions upon which policy-makers have drawn liberally in the postwar years. Developmentalists and security scholars alike will find much that is familiar in the case studies presented in Military Industry in Taiwan and South Korea. Dr Nolan's discussion of the stresses of rapid economic and political development in both states draws deeply on the modernization and dependency studies of the last two decades, while her treatment of the 'security environment' within which domestic policies must be made will satisfy the international relationist concerned with states as actors within the international system. Throughout, Dr Nolan provides a detailed presentation of the behaviour of both policies that will be of interest to North-East Asian area specialists and students of US arms policy.

War and State Terrorism-Mark Selden 2004 Tracing the course of conflicts throughout Asia in the past century, this groundbreaking volume is the first to explore systematically the nexus of war and state terrorism. Challenging states' definitions of terrorism, which routinely exclude their own behavior, the book focuses especially on the nature of Japanese and American wars and crimes of war. This rare comparative perspective examines the ways in which state terror leads to civilian casualties, war crimes, and crimes against humanity. In counterbalance, they discuss anti-war movements and international efforts to protect human rights. This interdisciplinary volume will resonate with readers searching for a deeper understanding of an era dominated by war and terror.

Historical Dictionary of the Korean War-Wilson Paul M. Edwards 2010-06-10 This second edition of Historical Dictionary of the Korean War offers a clear and concise, but inclusive, account of the major events, operations, and individuals involved in the Korean War. It covers the war in terms of people, places, events, and analysis, as well as carefully collected statistical and factual information about units, commanders, and casualties, for both the United Nations and its Communist adversaries.

The Making of the First Korean President-Young Ick Lew 2013-11-30 The only full-scale history of Syngman Rhee's (1875–1965) early career in English was published nearly six decades ago. Now, in The Making of the First Korean President, Young Ick Lew uncovers little-known aspects of Rhee's leadership roles prior to 1948, when he became the Republic of Korea’s first president. In this richly illustrated volume, Lew delves into Rhee’s background, investigates his abortive diplomatic missions, and explains how and why he was impeached as the head of the Korean Provisional Government in 1925. He analyzes the numerous personal conflicts between Rhee and other prominent Korean leaders, including some close friends and supporters who eventually denounced him as an autocrat. Rhee is portrayed as a fallible yet charismatic leader who spent his life fighting in the diplomatic and propaganda arena for the independence of his beleaguered nation—a struggle that would have consumed and defeated lesser men. Based on exhaustive research that incorporates archival records as well as secondary sources in Korean, English, and Japanese, The Making of the First Korean President meticulously lays out the key developments of Rhee’s pre-presidential career, including his early schooling in Korea, involvement in the reform movement against the Taehan (“Great Korean”) Empire, and his six-year incarceration in Seoul Prison for a coup attempt on Emperor Kojong. Rhee’s life in the U.S. is also examined in detail: his education at George Washington, Harvard, and Princeton universities; his evangelical work at the Seoul YMCA; his extensive activities in Hawaii and attempts to maintain prestige and power among Koreans in the U.S. Lew concludes that, despite the manifold shortcomings in Rhee’s authoritarian leadership, he was undoubtedly best prepared to assume the presidency of South Korea after the onset of the Cold War in the Korean Peninsula. Essential reading for anyone with an interest in modern Korean history, this work will serve as a lasting portrait of one of the pivotal figures in the evolution of Korea as it journeyed...

The Ashgate Research Companion to the Korean War-Professor Donald W. Boone Jr 2014-08-28 This essential companion provides a comprehensive study of the literature on the causes, course, and consequences of the Korean War, 1950-1953. Aimed primarily at readers with a special interest in military history and contemporary studies, the authors summarize and analyze the key research issues in what years was known as the 'Forgotten War.' The book comprises three main thematic parts, each with chapters ranging across a variety of crucial topics covering the background, conduct, clashes, and outcome of the Korean War. The first part sets the historical stage, with chapters focusing on the main participants. The second part provides details on the tactics, equipment, and logistics of the belligerents. Part III covers the course of the war, with each chapter addressing a key stage of the fighting in chronological order. The enormous increase in writings on the Korean War during the last thirty years, following the release of key primary source documents, has revived and energized the interest of scholars. This essential reference work not only provides an overview of recent research, but also assesses what impact this has had on understanding the war.

The Korean War-Lester H. Brune 1996 Comprehensive assessment by experts of the significant literature and research about the Korean War for broad interdisciplinary library use.

The Korean War-Stephen Hugh Lee 2013-12-02 Tens of thousands of US soldiers and untold millions of Koreans died in this war the first major arena of the East-West conflict. This concise international history of the war offers a new approach to its understanding, tracing its origins and dynamics to the interplay between modern Korean history and twentieth century world history. The narrative also uniquely examines the social history of the conflict, and includes material on the newly racially integrated US fighting forces, war and disease, women and war and life in the Prisoner of War camps. While most surveys stop at 1953, with the signing of the armistice, Steven Hugh Lee carries the story through to the Geneva Conference in the spring of 1954 the last major international effort before recent years to negotiate a permanent peace for the Korean peninsula.

A New History of Korea-Ki-baik Lee 1984 Follows the development of Korea from prehistoric times to the student revolution of 1960, and examines Korea's politics and culture from the perspective of the late twentieth century.

Power, Politics and the Cold War-William Ledbetter 1998 "This book hypothesises that an ILI perspective offers a better explanation of the law-State behaviour relationship during international crises than rival explanations grounded in positivism, realism or functionalism. Four case studies of State behaviour - of the US, the Soviet Union and the PRC during the Korean War (1950-1953), of the US and UK during the Suez crisis (1956), of the US and the Soviet Union during the Cuban Missile Crisis (1962) and of the US and an alliance of Latin American states during the Dominican Republic crisis (1965) - are used to test the hypothesis. The findings confirm the greater explanatory significance of IIL and demonstrate the significance of international law and power in foreign policy decision-making during international crises is more than that of deterrence the use of force as is assumed by rival theoretical approaches grounded in a rule-book image of international law."--Back cover.

America in the World-Michael J Hogan 1995 A survey of the historical literature on intelligence and national security during the Cold War.

America and the Koreans-James E. Hoare 2015-06-09 The Korean Peninsula lies at the strategic heart of East Asia, between China, Russia, and Japan, and has been influenced in different ways and at different times by all three of them. Across the Pacific lies the United States, which has also had a major influence on the peninsula since the first encounters in the mid-nineteenth century. Faced by such powerful neighbors, the Koreans have had to struggle hard to maintain their political and cultural identity. If they have from time to time been divided, the pressures towards unification have always proved strong. This third edition of Historical Dictionary of the Republic of Korea covers its history through a chronology, an introductory essay, appendices, and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Republic of Korea.
never to have been placed under Western rule, and its fiercely nationalist identity as a deeply Confucian civilization state has made it considerably more difficult to tackle than almost any other American adversary. This work elucidates the conflicting ideologies and the discordant designs for the Korean nation which have fueled the war, and explores emerging fields of conflict which have become increasingly central in recent years such as economic and information warfare. Prevailing trends in the conflict and its global implications, including the multiple trends that have been waged by proxy, are also examined in detail. An in-depth assessment of the past provides context key to understanding the future trajectories this relationship could take, and how a continuing shift in global order away from Western unipolarity is likely to influence its future. “To understand where the Korean Peninsula might go in the rest of the 21st century, Abrams’ telling of the story of how the two countries got to where they are today is essential.” – ANKIT PANDA, senior editor, The Diplomat

...even those who find his conclusions unpalatable will be forced to weigh them carefully.” – JOHN EVERARD, former British Ambassador to North Korea

Home Was The Land Of Morning Calm-K Connie Kang 2003-01-31 I am more American than Korean in my mind, writes K. Connie Kang, "but am more Korean than American in my soul. As for my heart, it is split in half.” A Revolutionary War-Elwood L. White 1992

The Republic Of Korea-David I Steinberg 2019-07-09 This book concentrates on the process of economic growth, for which Korea today is renowned. It examines some of the salient forces that helped to produce Korea's remarkable change and explores the evolution of the class structure in Korea and the changes it is now experiencing.

Teacher Unions, Social Movements and the Politics of Education in Asia-John P. Synott 2017-11-22 This title was first published in 2003:In the globalizing world, South Korea is widely regarded as a model example of how a school education system can enhance national economic development. Similar claims are made for other Asian NICs such as Taiwan. However, less understood is how the education system in South Korea became a site of intense conflict as, in the decade from 1989-99, a large movement of teachers battled with the government over development-related issues such as democratic reforms and human rights in schooling, in a struggle that divided this education-oriented society and at times plunged the nation’s schools into chaos. This book analyses the emergence of the National Teachers’ Union of Korea, Chunkyrojo, and traces its struggle for educational reforms. The book examines the South Korean education system within national and global contexts and the historical experiences that have shaped the modern nation - such as its Confucianist history, its experiences of colonialism and the legacy of the Cold War conflict with North Korea. As South Korea searches for pathways for reunification, economic growth and the consolidation of democratic civil society, important new perspectives on the role of education emerge through this analysis of the teachers’ social movement. This book also presents separate chapters on teacher movements in Taiwan and the Philippines, that provide interesting comparisons to the South Korean case, while revealing the distinctive political and historical experiences that have shaped education in these societies and the emergence of reformist teacher movements. In a valuable appendix, the author discusses methodological and theoretical aspects of the research in this book.

Christ and Caesar in Modern Korea-Wi Jo Kang A well-documented work on the history of modern Korea focusing on the history of Christianity in relation to politics. Embattled Memories-Suhi Choi 2014-05-07 The Korean War has been called the “forgotten war,” not as studied as World War II or Vietnam. Choi examines the collective memory of the Korean War through five discrete memory sites in the United States and South Korea, including the PBS documentary Battle for Korea, the Korean War Memorial in Salt Lake City, and the statue of General Douglas MacArthur in Incheon, South Korea. She contends that these sites are not static; rather, they are active places where countermemories of the war clash with the official state-sanctioned remembrance. Through lively and compelling analysis of these memory sites, which include two differing accounts of the No Gun Ri massacre—contemporaneous journalism and oral histories by survivors—Choi shows diverse narratives of the Korean War competing for dominance in acts of remembering. Embattled Memories is an important interdisciplinary work in two fields, memory studies and public history, from an understudied perspective, that of witnesses to the Korean War. Right to Mourn-Suhi Choi 2019 In the highly politicized memory space of postwar South Korea, many families have been deprived of their right to mourn loved ones lost in the Korean War. Only since the 1990s has the government begun to acknowledge the atrocities committed by South Korean and American troops that resulted in large numbers of civilian casualties. The Truth and Reconciliation Committee, new laws honoring victims, and construction of monuments and memorials have finally opened public spaces for mourning. In Right to Mourn, Suhi Choi explores this new context of remembering in which memories that have long been private are brought into official sites. As the generation that once carried these memories fades away, Choi poses an increasingly critical question: can a memorial communicate trauma and facilitate mourning? Through careful examination of recently built Korean War memorials (the Jeju April 3 Peace Park, the Memorial for the Gurye Victims of Yosun Killings, and the No Gun Ri Peace Park), Right to Mourn provokes readers to look at the nearly seven-decade-old war within the most updated context, and show how suppressed trauma manifests at the transient interactions among bodies, objects, and rituals at the sites of these memorials. The Four Little Dragons-Ezra F. Vogel 1991 Vogel brings mastery insight to the underlying question of why Japan and the little dragons--Taiwan, South Korea, Hong Kong, and Singapore—have been so extraordinarily successful in industrializing while other developing countries have not.
